

R E M A R K S

By this Amendment claim 1 has been amended to recite that the attachment means comprises an attachment hole with inner threads (see specification at page 7, lines 19-21). Neither Persoons nor Albrektsson et al. would suggest an anchoring element having an attachment means with a hole having inner threads.

A prompt allowance of this application is now requested.

Respectfully submitted,

DYKEMA GOSSETT PLLC
